

TEAM BIO FOR THE SURVIVEOARS OF THE CENTRAL COAST

The SurviveOars began as a women's breast cancer survivor team in 2007. We are based in Morro Bay, in the central coast of California. For almost two years we practiced in a 10 person war canoe provided by SubSea Tours of Morro Bay. We are part of Team Survivor and proud owners of our own dragon boat, thanks to a generous donation from a local oncology group. The club is now a women's ALL cancer survivor team with close to 60 members.

Our team won the bronze in San Francisco in 2009, the gold in the cancer survivor divisions in Long Beach for 2009, 2010 and 2011. We also won the gold in the cancer division in Tempe, Az, in 2010.

In addition to promoting exercise and camaraderie for women cancer survivors, we are promoting dragon boating in our area. We are the only club between San Francisco and Long Beach.
