

Team VIO Bio

VIO is a diverse team based out of San Francisco, CA. It was founded just one year ago by a group of local UC San Diego alumni who wanted to continue paddling together after college. The team has grown from its original core to over 25 strong and continues to develop as most of its members are brand new to the sport of Dragon Boat. VIO believes in creating new friendships, playing sports after practices, and eating tons of good food as often as possible.
